# Nourish your body, **help the world flourish.**

Did you know your food choices can benefit both your health and the planet? Choosing plant-based foods is a simple way to support a healthier lifestyle while lowering your environmental impact. They tend to produce less emissions and require fewer natural resources, such as water and land.

**Find  
out  
more**

Find out more  
about our goals.  
**[lidl.com/mt/wwf](https://lidl.com/mt/wwf)**

In partnership with WWF, we are committed to promoting conscious nutrition. By 2030, we aim to increase our plant-based offerings by 20% compared to 2023, making it easier for you to make mindful choices for both your body and the planet.

### **How can you make a difference?**

For a balanced and more sustainable diet, fill your plate with vegetables, whole grains, fruits, nuts, seeds, and legumes.

#### **Go plant protein!**

We're adding more plant-based protein to our selection. That means more legumes, nuts, seeds, and plant-based meat alternatives for you.

#### **Go whole grains!**

We're increasing the share of whole grains and whole grain products in our range.

#### **Go veggie!**

Fresh fruits and vegetables have always been at our core – and that will never change.
